Rutgers, The State University of New Jersey
Overview

With major campuses in northern, central, and southern New Jersey and extension offices and activities in all twenty-one counties, Rutgers is the flagship institution of New Jersey’s public higher education system. It is a vibrant and diverse community of 49,000 students and more than 10,000 faculty and staff. The university comprises 29 undergraduate colleges and graduate and professional schools, as well as over 130 specialized research institutes. Some 175 academic departments offer over 270 bachelor’s, master’s, doctoral, and professional degree programs.

While these numbers are impressive, they do not capture the magnitude of Rutgers’ dramatic recent transformation. Founded over 230 years ago in 1766, Rutgers is distinguished as one of the oldest institutions of higher learning in the country. At the same time, modern-day Rutgers, which was designated New Jersey’s state university in 1945 and 1956, qualifies as the youngest of America’s major public research universities.

In the short span of the last forty years, Rutgers has risen from a disparate collection of schools, geographically dispersed and operating largely independently, into the ranks of the most prestigious educational institutions. That advancement was recognized in 1989 when Rutgers was asked to join the Association of American Universities, comprising the top research universities in North America. Today, Rutgers thrives as a cohesive academic community, capitalizing on its collective strengths, and building synergies across disciplines and campuses that will benefit students, faculty, and residents in every corner of New Jersey.

Dedicated to a threefold mission, Rutgers is equally committed to excellence in teaching, scholarship, and public service. And driving all of Rutgers’ activities is the defining characteristic of a premier research university: the continuous and vigorous creation of intellectual capital—the new discoveries and insights that drive the advancement of human knowledge and contribute to the improvement of the human condition.
Rutgers, New Jersey’s preeminent public university, is one of a small number of comprehensive research universities that is both prepared and committed to exercise national leadership for higher education. We are dedicated to a standard of quality that makes Rutgers a preferred choice for students, a first-rate intellectual environment for faculty, and an outstanding place to work for staff.

We are committed to:

• Creating knowledge and ideas for the improvement of the human condition.
• Preparing students to meet the needs of a changing society and encouraging their personal and professional growth.
• Advancing the well-being of our communities, state, and nation.

Rutgers seeks nothing less than to become one of America’s very best universities.

**A Commitment to Excellence**

To realize our vision, Rutgers will:

• Sustain the highest standards in learning, discovery, and engagement with our constituents.
• Serve our communities, our state, our nation, and the international community.
• Advance scholarship and intellectual vitality in our academic disciplines.
• Attract, welcome, develop, and retain outstanding students, faculty, and staff.
• Encourage the open and civil exchange of ideas and perspectives.
• Provide superior curricular and cocurricular opportunities for students at all levels.
• Educate exceptional leaders and citizens for future generations.
• Foster a supportive and collaborative social environment, and a community dedicated to respecting and valuing diversity.
• Maintain a safe, clean, and attractive physical environment.
• Maintain accessible, responsive, and cost effective programs and services.
• Dedicate our learning community to ongoing self-assessment, and unceasing improvement of all that we do.
Programs - Degree and Program Offerings

Program List
Rutgers has 29 degree-granting divisions, including 12 undergraduate colleges and 12 graduate schools, and five schools which offer both undergraduate and graduate programs. Five are located in Camden, eight in Newark, and 16 in New Brunswick. They offer students a comprehensive array of programs. Complete lists of graduate and undergraduate program offerings are contained in the graduate and undergraduate Admissions Applications.

Accreditation
As an institution, Rutgers is accredited by the Commission on Higher Education of the Middle States Association of Colleges and Schools. That accreditation was renewed in 1998 and will again be reviewed in 2003. The accreditation process is one of peer review which requires an institution to define itself through an institutional mission statement, and then uses an array of criteria to determine if the institution is able to fulfill its mission successfully. Apart from institutional accreditation, certain schools and programs also undergo specialized accreditation reviews, for example, the Newark and Camden Law Schools, and the New Brunswick and Camden Schools of Business.

Innovative Programs
Rutgers offers a variety of innovative programs designed to make the most educationally and economically effective use of resources, enabling students to challenge themselves and complete degree requirements at an accelerated pace. These programs include continuing education; joint programs with other institutions; partnerships with K-12; and partnerships with business, industry, and government. Apart from these, Rutgers has a variety of other innovative programs. For example, undergraduate students pursuing professional programs first affiliate with an undergraduate college, taking a wide variety of arts and sciences for the first two years, before entering the professional school, where they take a concentration in their field of study; a number of programs exist in which the undergraduate programs articulate directly into graduate programs (e.g. the Master of Accounting in the School of Business); and interdisciplinary programs take full advantage of faculty resources in a number of departments (e.g. Women’s Studies and Medieval Studies). In addition, the Citizenship and Service Education (CASE) program integrates public service and regular coursework; the result is to instill in students a strong and committed sense of civic responsibility.
